Address:
Kocaeli/Turkey

Creative and detail-oriented game developer with a passion for creating engaging and innovative games. Proficient in Unity and with a strong understanding of user experience and game mechanics. Skilled in implementing gameplay mechanics, designing levels, and optimizing game performance. Collaborative team player with strong communication and problem solving skills.

Experience

Game Designer / Developer – Holonext, Istanbul
Game Designer (03/2022 to 11/2022)
- Led team of 3 to design unique gameplay mechanics and levels for 30+ hypercasual games
- Managed ideation sessions and collaborated with publishing managers to create detailed GDDs
- Developed quick solutions to design challenges and tracked ongoing projects

Game Developer (11/2020 to 05/2022)
- Collaborated with other developers to write reusable gameplay systems in Unity and C#
- Improved game feel using animations, particles, shader graphs, UI systems, and sound
- Developed 30+ hypercasual games with unique mechanics and actively participated in game design sessions

Game Developer – Geek Koala (09/2018 to 02/2020)
- Developed over 10 hypercasual games using provided GDDs
- Participated in game design and solved design problems

Game Developer Intern – Binary Games (06/2018 to 08/2018)
- Developed five hypercasual prototypes in Unity, from game design to full prototype
- Acquired a foundation in game development principles and best practices

Education

Computer Engineering – Kocaeli University (2017–2022)

Other Projects

Kocaeli University Computer Engineering Society – 11/2020 to 6/2022
- Organized workshops, provided mentorships, and taught courses voluntarily as game development team leader

Game Jams
- GGJ Atom 2018, 2019
- Otto Game Jam 2020
- Bogazici Game Jam 2021
